## COMPANY PROFILE

We "S.P. Engineering" founded in the year 2000 a manufacturing company that is engaged in building Automatic Power factor control panel, Distribution panel, Feeder panel, AC drive panel, Direct online starter panel, Motor Control panel, Outdoor & weatherproof panel & many more. We have an extended & well functional infrastructural unit.

We have an in-house facility of manufacturing & fabricators of panel boards of all sizes & a high technology Powder coating plant with seven tank processes. We always ensure to purchase the good quality of sheet metal for the manufacturing of Power panels.

For the safety & protection of yours & your factory we always prefer to use what suits you the best in class, whether to select the best quality of PVC wires, Aluminium, or copper busbar, or selecting any brand of switchgear we promise you to offer best quality of products and wide range of selection. To protect from dust & minute particles entering inside the panel doors are covered fully inside from the gasket. At the End we conduct several tests at our factory to provide you with the best quality of product.

## MACHINERY & EQUIPMENT

Fiber laser cutting machine | Hydraulic shearing machine  
Hydraulic bending machine | 50 Ton power press| Welding machine

## VISION

Our vision is to deliver products of exceptional quality, exhibiting superior accuracy and precision. In pursuit of this goal. We are committed to crafting finished products that surpass industry standards, ensuring our customers receive the best possible experience.

## MISSION

Our Mission is to serve the best quality of product with best operational and innovative technology at genuine cost of work.

## UNIQUE SKILLS

we have an experienced staff since beginning who serves in this field from more than 15 years.

## QUALITY ASSURANCE

Our dedicated team conducts thorough testing and validation, utilizing advanced technology and methodologies. We actively seek feedback from our customers to drive continuous improvement and innovation. Our focus on customer satisfaction is evident in the positive testimonials we receive.
